

PERSONAL STATEMENT

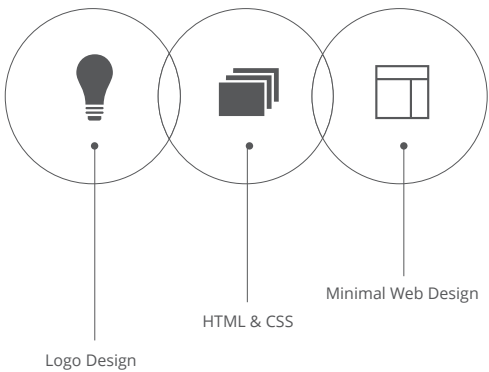

I'm a 25 years old Web Developer and Graphic Design enthusiast currently based in Angus, Scotland. I love everything about web design & development, graphic design, packaging, industrial design and typography.

I am a logical and creative thinker who enjoys learning new languages, frameworks, and technologies in general and excited to be part of the future of the technology industry. The satisfaction of solving problems drives me to be a better Developer/Designer.

A business background combined with an entrepreneurial spirit can be utilized for aligning profitable goals when developing and designing. I am passionate about travel, the outdoors, film, exercising and meeting new people.

Why don't we work together? check out my work at *imstoz.com*
